

A NEW TRAINING SYSTEM

FOR THE

NDIS

What is the NDIS Portable Training System?

The NDIS Portable Training System, developed by the ASU, would allow you to accumulate training hours as you work.

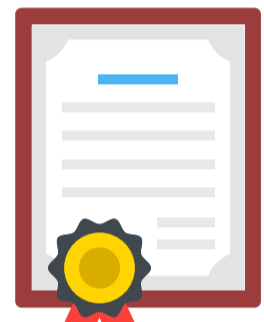

50 work hours

1 hour of free training

Average NDIS worker

3 days of training per year

You would be able to choose the courses that allow you to develop your skills and career in the NDIS.

The credits are yours. They transfer with you from employer to employer within the NDIS.

Research shows the NDIS Portable Training System would cost less than one cent for every dollar the Government spends on the NDIS.

We need your help to win!
