| Email | Superannuation win – 450 threshold scrapped 10/05 |
| Subject | ASU WIN – over a million workers to receive superannuation! |
| Body | <p>(fname),</p> <p>Congratulations! Over a million workers will start receiving superannuation!</p> <p>After years of campaigning by ASU members, the Federal Government has today finally announced that the \$450 minimum earning threshold for superannuation threshold has been scrapped!</p> <p>This is a HUGE win for thousands of part-time workers who are primarily women.</p> <p>Now more than 1 million Australians and over 500,000 women will be able to start saving for their retirement.</p> <p>What’s next?</p> <p>Tomorrow’s Federal Budget is an opportunity for the Morrison Government to guarantee a secure, dignified retirement for women. Can you help us put the pressure on?</p> <p>We need your help to get the Federal Government to Stand Up for Super. Will you sign our petition?</p> <p>We’re calling on the Government to implement these Super measures NOW:</p> <ol style="list-style-type: none">1. Immediately implement the planned increase to 12% super so that women don’t lose any more of their planned retirement savings.2. Help close the gender super gap by paying super on paid parental leave as well as on all government carer and family payments.4. Put in place structures that encourage superannuation contribution sharing when only one parent is working.5. Fund government co-contribution top-ups for workers who are not on track for a decent retirement. <p>It’s simple – superannuation should be paid on every dollar earned. Sign the petition here.</p> <p>By your side,</p> <p><Branch Sign Off></p> |
