The Australian Municipal, Administrative, Clerical and Services Union (ASU) presents its report on the operation of the Union for the financial year ended **June 30th, 2024**.

1. Review of principal activities, the results of those activities and any significant changes in the nature of those activities during the year

[Refer s.254(2)(a)]

The results and any significant changes in the nature of those activities during the year have been dominated by the following activities:

- Modern Award Matters – making and responding to application to vary awards and finalizing outstanding items in review of all Modern Awards (4 Yearly Review);
- National Enterprise Bargaining – negotiations of agreements across all ASU industries;
- Submissions to Federal & State Government Inquiries;
- National Campaigns on industrial issues of importance to members;
- Governance – Regulatory Compliance, Governance, Right of Entry training, rule changes and WGEA Reporting

1.1 Industrial Relations Reforms

The ASU has participated in the current phase of national reforms via the *Closing the Loopholes & Right to Disconnect legislation* to the federal industrial relations system as follows:

- Right to Disconnect
- Criminalisation of wage theft
- National labour hire regulation
- Better protections for contractors and gig economy workers
- Reforming adverse action and anti-discrimination provisions
- Sex Discrimination and Sexual Harassment Best Practice Kit

1.2 Award Matters

Annual Wage Review

- The ASU has made submissions to the Annual Wage Review, highlighting experience of members through a survey of professional administrative sector employees. This supported the ACTU claim and drew attention to gender equity principles.
- The ASU participated in the ACTU working groups such as the pay equity working group particularly as they effect the SCHDS, Legal Services, Airline Operations and Clerks Private Sector Awards.

Modern Awards Review 2023-2024

The proceedings were organised around key theme Job Security, Making Award Easier to Use and Work and Care. The ASU played a leading role in each stream and lead the development of the ACTU's strategy. Significant issues included better rostering and overtime arrangements for part-timers, better conditions for casuals, roster justice, better flexible working arrangements, working from home arrangements.

The FWC issued its final report with significant outcomes for the ASU:

- No recommendations to reduce conditions for any employees.
- The Commission found that current part-time employment arrangements are not fit for purpose. It will conduct a review of part-time employment provisions in all modern awards in 2025.

- A new working from home test case focused on the *Clerks Private Sector Award 2020*.

Gender Undervaluation Review

The Fair Work Commission initiated a review of gender undervaluation in 5 awards, including the SCHDS Award, the Aboriginal Health Workers Award, and the Health Professionals and Support Services Award. It is likely that this review will establish new wage fixing principles that may flow on into other ASU Awards, such as the Legal Industry Award, Contract Call Centres Award and the Clerks Award.

Clerks Award & Banking and Finance Industry Awards

- Australian Business Industrial and AI Group have made applications to exclude some employees from the coverage of the Clerks Award and the Banking, Finance and Insurance Industry Awards if they are paid more than the minimum award rate of pay. We are opposing these applications.
- The Commission has indicated that it will start a case to consider working from home arrangements in the Clerks Award. The ASU will focus on a universal right to request working from home arrangements and an allowance for employees who are forced to work from home.

SCHDS Award

- The ASU has implemented an industrial strategy to protect equal pay, win a fair classifications structure and improve working conditions for community and disability sector workers.
- A **UNSW Research Report** based on a survey of community and disability services industry workers is the largest ever study of community and disability workers in Australia, it accounts for 1% or more of the total SCHDS Award industry. The report will inform the next steps in the broader SACS Classification Case and support our political activity. It demonstrates that the SCHDS Award fails to properly describe the work of community sector workers leading to extensive under-classification.
- A variation to ensure that disability support workers are classified under Schedule B of the SCHDS Award will be made in conjunction with the AWU, HSU and UWU.
- **Work Value:** An application to significantly vary the classification structure in the SCHDS Award has been lodged. The ASU is seeking a simplified classification structure that properly values members' professional work. Three phases are proposed firstly, the Commission should incorporate the Equal Remuneration Order pay rates into the Award, Secondly, the Commission should identify the work value assessed during the SACS Equal Pay Case in 2012 by implementing indicative job titles for each level and finally, the Commission should create a new structure that reflects the significant work value change in the industry since 2012.
- **Sleepover Case:** AIG and Parkerville (WA Children & Youth Services provider) have made applications to vary the SCHDS Award to allow back-to-back shifts after sleepovers which could mean that community sector workers could be on the employer's premises for as long as 28 hours without a genuine break. The ASU has filed a counterclaim to improve conditions for employees working sleepovers by increasing the allowance and limiting the circumstances where they can be used.

1.3 National ASU Enterprise Bargaining

The National Office of the ASU leads negotiations for National Enterprise Agreements, in conjunction with ASU Branches who have membership with these employers. These negotiations take place across many varied industries as detailed below:

- **Airlines**
The ASU has completed or is negotiating with the following companies: Virgin Australia Guest Services, Garuda, Menzies (VIC & NSW) and Dnata Catering.

- **General Administrative and Clerical**
The ASU has completed or is negotiating with the following private sector employers, Salter & Gordon, Maurice Blackburn & Unions: Apple, VIQ, Slater & Gordon, NTEU, FSU and AMWU.
- **Social & Community Services (SACS)**
The ASU has completed or is negotiating with the following SACS employers: NEAMI, Smith Family and Mission Australia.
- **Zombie Agreements**
The ASU has participated in the FW Act reform of setting aside zombie agreements with respect to those within the ASU's coverage particularly in the airlines industry.

1.5 National Campaigns & Communications

Highlights of campaign activities

- **Clock off Switch off**

A campaign for a legislated right to disconnect was launched through a new campaign website, based on member survey results, a petition to the Federal Government and campaign materials for workplaces. The campaign activity focused on engagement and growth of professional administrative workers with the development of an unpaid time calculator to engage with members and lead generation.
- **Fair Rostering for Airline Employees**

A concurrent, but with separate campaign website and workplace materials, Clock off Switch off campaign focussing on airline shift workers to seek tangible improvements including limits around working times, requiring advanced notice of rosters and roster changes, protecting workers from negative consequences for refusing contact outside of working hours, and predictable and secure rostering rights. The ASU campaigned for a new industry minimum standard of 28 days' forward rostering with a 14-day notice period for changes, as well as limits of five consecutive days of work without a day's break and a daily maximum limit of 12 hours work.
- **Standing our Ground – Airlines Campaign**

A new campaign for roster justice launched at the National Airlines Divisional Council (NADC) meeting in Melbourne in May 2024. Almost 100 delegates from each airlines Branch endorsed and launched the campaign with an action at the conference. Campaign materials, including flyers and a petition, which they are already taking into workplaces across the country
- **ASU for Yes**

ASU members came together to campaign throughout the Voice referendum campaign and better outcomes for Aboriginal and Torres Strait Islander peoples with campaign activity including telephone calls to ASU members, on the ground workplace and community campaigning such as doorknocking and leafletting.
- **Unpaid placements**

The ASU has partnered with social work student members and the heads of social work schools to support a campaign to end unpaid student work placements. Campaign activity has so far included an online roundtable with Australian universities accord panel higher education review roundtable, in-person roundtable in Sydney with the federal Education Minister as well as campaign communications and materials including a petition.
- **Local Government Matters**

In late 2023 at a National Australian Labor Party Conference, ASU/USU representatives won significant commitments from the Federal Government for local government, including: Increased funding for Federal Assistance Grants; a commitment to run a detailed Parliamentary Inquiry into how the government can increase funding to local government, as well as issues affecting local government capacity such as rate capping and cost shifting and an ongoing partnership between the government and the ASU/USU to build better funding and fairly paid, secure jobs in Local Government.

In preparation for the Inquiry into Local Government Sustainability, The ASU ran a national survey of members working in local government throughout April and May. ASU members response was clear: greater government funding is needed for secure jobs, quality services, and proper investment in local government. The ASU launched the Local Government Matters campaign and created a campaign pack for Branch and member use which can be accessed on

the Local Government website, including workplace campaign materials, digital materials for social media and member communications, online tools such as a petition, survey report summary guide.

- **Community and disability workers deserve better**

In May the ASU held a National SACS and Disability Member Summit with members from around the country to plan and launch our sector-wide campaign to lift the wages and conditions for community and disability workers: 'Community and Disability Workers Deserve Better'. A groundbreaking report commissioned by the ASU was launched at the summit: 'Australia's social and community services workforce: Characterisation, classification and value' by UNSW Social Policy Research Centre.

This gained national media attention with coverage in over 70 publications nationally. The summit attendees created and endorsed a campaign action plan around the theme 'Skilled, Respected, Equal' and members have begun rolling out the campaign in their workplaces. A campaign website was launched with a petition, campaign sign-up form, and the newly launched research report – all to engage members and generate non-member leads for recruitment. Delegates from across the country will lobby MPs in Canberra to gain support for the campaign.

- **Sleepovers: Wake up big business. Hands off our sleepover pay**

The ASU held a rally outside AiG in Sydney as part of the SACS and Disability National Member Summit to hand deliver a petition and call on AiG to abandon their bid to change the SCHDS Award to have sleepover shifts classified as 'breaks'. Members wore ASU-branded sleeping masks, and rallied with placards, banners, and lots of chanting. This action boosted the petition and generated powerful content for social media. The ASU has appeared in the Fair Work Commission conciliation in opposition to the AiG matter as well as providing submissions in reply to the ease-of-use stream of the Modern Award Review.

- **Right to Disconnect – Clock Off and Switch Off**

Since winning the Right to Disconnect, the ASU has run briefings for Branch officials and organisers around the new industrial right and provided updated campaign materials for use with members.

Highlights of member engagement activities

In 2023-24 the program included 32 new interactive live webinars, and access for ASU members to over 180 on-demand webinars. In the 2023-2024 reporting period ASU Career Launchpad had over 2,960 registrations for live webinars by ASU members.

National Communications and improving the member experience

Throughout 2022-23 the ASU has undertaken extensive research and data analysis aimed at improving the member experience and membership value and continued building a new national database and website. This work has included:

- The ASU has moved towards a national membership system. This involves the building of a new national membership database and member portals across seven ASU Branches with three Branches going live and a further four Branches to transition in the next year. The national system provides better services to members including a member portal and tools to assist in the growth of the union.
- Development, design and copy for a new ASU website
- Development and launch of a new online ASU join form which is mobile-friendly and platform responsive
- Development of new member communications, and automated member communications.

- Maintenance and development (as needed) of a learning management system for the professional development program (ASU Career Launchpad) which has the ability to be integrated with the new database;
- Social media content across Facebook, Instagram, Twitter and LinkedIn focusing on current bargaining- primary in Airlines and Apple and other ASU campaigns.
- Launch of the ASU Pride network.
- The ASU Career Launchpad program delivered sessions on topics as diverse as allyship (presented with our gender-diverse members), preventing vicarious trauma, and an education session on the recent Unions for YES! campaign, Continuing Professional Development (CPD) sessions providing high-value professional skills development to legal sector professionals, as well as four webinars on Superannuation in partnership with Australian Super. Member registrations for the years ending 2023 and 2022 were, as follows:
 - 4,724 live webinar registrations in 2023.
 - 2,401 live webinar registrations in 2022.
 - 3,694 on-demand webinar registrations in 2023 – about 15% of the registrations occurred in December when the live webinars were paused.
 - 2,219 on-demand webinar registrations in 2022.

National ASU Industry Meetings

The ASU coordinates National meetings of officials and delegates in some of its key industries, including Airlines (National Airline Division Council), Energy, Local Government and the Social and Community Services Sector (SACS). The location of these meetings shifts from State to State and are also conducted online so as to give Branches better local access.

Industrial Officers Masterclass

An Industrial Officer's Masterclass meet regularly and assist Branches with industrial work. ACTU, National and Branch officials have presented strategies for a range of industrial topics including Fair Work Act reform, WHS, industrial action, workplace issues, multi-employer bargaining, economic briefings, 4 day working week, fixed term employment and superannuation reforms.

Health, Safety & Workers Compensation

The ASU National Office campaigns on health & safety and worker's compensation issues and campaigns on the national level. Branches lead the work on state or territory health and safety issues.

1.6 Governance

Regulatory Compliance

- Administration of the ASU in accordance with the National Rules of the Union; including meeting reporting requirements of the Fair Work (Registered Organisations) Act 2009 with respect to registered organisations; convening of meetings of the National Executive of the Union and implementing decisions made by the National Executive.
- Maintaining the National finances and assets of the Union in accordance with the Union's rules. This includes the annual lodgement of Financial Statements, the Operating Report and Disclosure Statements such as the Officer and Related Party Statement and Loans Grants and Donations with FWC, and political donations disclosures with the AEC.
- National coordination of ASU governance obligations for consistency across the Union and to assist Branches' obligations.
- Branch Governance/Compliance teleconferences are held every 6 weeks.
- The 2024 ASU Annual Return [AR2024/18] was lodged by the National Office on 30 March 2024.
- The ASU participates in the ACTU Governance & Finance Officers Group quarterly meetings to discuss regulatory reforms and updates on union governance obligations.

- The national data base of all elected National and Branch Officers is being maintained with details and changes regularly updated by Branches as notified to the Fair Work Commission.
- The ASU National rules have been amended to meet new obligations, legislative requirements and governance best practice as follows:

FWC lodgement date	Rule change	FWC decision
12/12/2023	Qld Together Branch rules were amended to clarify the role of Conference Delegates representing regional and Aboriginal & Torres Strait Islands zones, Branch, subdivisions and recognition of a full time President option.	R2023/136
21/5/2024	National Rules updating Workplace Delegates Rights in Rules 3 & 55 to reflect Fair Work Act reforms. The rule changes enable Branch Committees of Management and Branch Secretaries, as delegated, to have the power to approve elections of delegates, appoint delegates and suspend or terminate the appointment of delegates for conduct in breach of the Union's rules and policies.	R2024/69

Registered Organisations Governance and Compliance External Review

The ASU lodged a written submission with the FWC General Manager and participated in the external 'Registered Organisations Governance and Compliance Review' with a focus on FWC supervision of AEC elections and consolidation of all annual reporting requirements.

2023 Quadrennial Elections – AEC Electoral Report

The 2023 ASU Quadrennial Post Election Report was issued by the Returning Officer in April 2024. As a result, the ASU has agreed to make some minor national electoral rule changes to ensure clarity and consistency with the Fair Work RO Act. Branches will determine further Branch electoral rule changes during the current term of office.

ASU Policies

The ASU has been reviewing its governance policies and procedures including developing and reviewing policies as follows:

- Board Appointment Policy
- Conflict of Interest and Gift Policy
- Credit Card Policy
- Disclosure, Financial Training Audit and Financial Reporting Policy

Notes to the Financial Statements

For the Year Ended 30 June 2024

1 Summary of Material Accounting Policies

(a) Basis of preparation

The financial statements are general purpose financial statements and have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period and the *Fair Work (Registered Organisation) Act 2009*. For the purpose of preparing the general purpose financial statements, the Australian Services Union - National Office is a not-for-profit entity.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost basis of accounting, except for certain assets and liabilities are measured at fair value, as explained in the accounting policies below. Historical cost is generally based on the fair values of the consideration given in exchange for assets. The financial statements are presented in Australian dollars.

Except where otherwise stated, the accounting policies in the preparation of this financial report are consistent with those of the previous financial year. The financial statements were authorised for issue on the same date the statement by the Committee of Management was signed.

(b) Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(c) Income Tax

No provision for income tax has been raised as the National Office is exempt from income tax under Div 50 of the Income Tax Assessment Act 1997. However, the National Office still has obligations for Fringe Benefit Tax (FBT) and Goods and Services Tax (GST).

(d) Goods and services tax (GST)

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payable are stated inclusive of GST. The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the statement of financial position.

Cash flows in the statement of cash flows are included on a gross basis and the GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

1 Summary of Material Accounting Policies

(e) Leases

The Company has elected to apply the exceptions to lease accounting for both short-term leases (i.e. leases with a term of less than or equal to 12 months) and leases of low-value assets. The Company recognises the payments associated with these leases as an expense on a straight-line basis over the lease term.

(f) Revenue and other income

Where National Office has a contract with a customer, National Office recognises revenue when or as it transfers control of goods or services to the customer. National Office accounts for an arrangement as a contract with a customer if the following criteria are met:

- the arrangement is enforceable; and
- the arrangement contains promises (that are also known as performance obligations) to transfer goods or services to the customer (or to other parties on behalf of the customer) that are sufficiently specific so that it can be determined when the performance obligation has been satisfied.

Capitation fees

Where the National Office's arrangement with a branch or another reporting unit meets the criteria to be a contract with a customer, the National Office recognises the capitation fees promised under that arrangement when or as it transfers the services as part of its sufficiently specific promise to the branch and other reporting unit.

Interest income

Interest revenue is recognised on an accrual basis using the effective interest method.

Other revenue

Other revenue is recognised when the right to receive the revenue has been established.

All revenue stated is net of the amounts of goods and services tax (GST).

(g) Gains and losses

Gains and losses from disposal of assets are recognised when control of the asset has been passed to the buyer.

(h) Reimbursement from other reporting units

The amounts reimbursed for payroll tax, insurance premiums and other costs are treated as deductions from the corresponding expenses on the basis of the costs being expenses of the branch. Accordingly the income and expenses relating to reimbursement of these items are not recognised in the statement of profit or loss and other comprehensive income of the National Office. For further details see Note 20(c) Transactions with Other Reporting Units.

Notes to the Financial Statements

For the Year Ended 30 June 2024

1 Summary of Material Accounting Policies

(i) Employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave, long service leave and termination benefits when it is probable that settlement will be required and they are capable of being measured reliably.

Liabilities for short-term employee benefits (as defined in AASB 119 Employee Benefits) and termination benefits which are expected to be settled within twelve months of the end of reporting period are measured at their nominal amounts. The nominal amount is calculated with regard to the rates expected to be paid on settlement of the liability.

Other long-term employee benefits which are expected to be settled beyond twelve months are measured as the present value of the estimated future cash outflows to be made by the reporting unit in respect of services provided by employees up to reporting date.

(j) Cash and cash equivalents

Cash is recognised at its nominal amount. Cash and cash equivalents comprises cash on hand, demand deposits and short-term highly liquid investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value with original maturities of three months or less. Bank overdrafts are shown within short-term borrowings in current liabilities in the statement of financial position.

(k) Financial instruments

Initial recognition and measurement

Financial assets are classified, at initial recognition, and subsequently measured at amortised cost, fair value through other comprehensive income (OCI), or fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the National Office business model for managing them. With the exception of trade receivables that do not contain a significant financing component, the National Office initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

Financial assets at amortised cost

The National Office measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Australian Services Union - National Office

ABN: 28 519 971 998

Notes to the Financial Statements

For the Year Ended 30 June 2024

1 Summary of Material Accounting Policies

(k) Financial instruments

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The National Office's financial assets at amortised cost includes trade receivables and loans to related parties.

De-recognition

A financial asset is derecognised when:

- The rights to receive cash flows from the asset have expired or
- The National Office has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:
 - a) the National Office has transferred substantially all the risks and rewards of the asset, or
 - b) the National Office has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the National Office has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership.

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the National Office continues to recognise the transferred asset to the extent of its continuing involvement together with associated liability.

Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Impairment of financial assets - *Trade receivables*

For trade receivables that do not have a significant financing component, the National Office applies a simplified approach in calculating expected credit losses (ECLs) which requires lifetime expected credit losses to be recognised from initial recognition of the receivables.

Therefore, the National Office does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The National Office has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For the Year Ended 30 June 2024

1 Summary of Material Accounting Policies

(k) Financial instruments

Financial liabilities

The National Office measures all financial liabilities initially at fair value less transaction costs, subsequently financial liabilities are measured at amortised cost using the effective interest rate method.

The financial liabilities of the National Office comprise trade payables, bank and other loans and finance lease liabilities.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, at amortised cost unless or at fair value through profit or loss.

All financial liabilities are recognised initially at fair value and, in the case of financial liabilities at amortised cost, net of directly attributable transaction costs.

The National Office's financial liabilities include trade and other payables.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

(l) Property, plant and equipment

Land and buildings

Freehold land and buildings are carried at cost less accumulated depreciation.

Plant and equipment

Plant and equipment are measured on the cost basis and are therefore carried at cost less accumulated depreciation and any accumulated impairment losses.

The carrying amount of plant and equipment is reviewed annually by national executives to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of depreciated replacement cost.

Australian Services Union - National Office

ABN: 28 519 971 998

Notes to the Financial Statements

For the Year Ended 30 June 2024

1 Summary of Material Accounting Policies

(l) Property, plant and equipment

Depreciation

The depreciable amount of all fixed assets including buildings and capitalised leased assets, but excluding freehold land, is depreciated on a straight-line over the assets useful life to the National Office, commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements. Land is not depreciated.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Assets	
Buildings	2.5%
Motor vehicles	10%
Office furniture and equipment	10%-33%

The residual values of assets, depreciation methods and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

The carrying amount of each asset is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are included in the statement of profit or loss.

De-recognition

An item of property, plant and equipment is derecognised upon its disposal or when no future economic benefits are expected from its use. Gains and losses on disposal are determined by comparing proceeds with the carrying amount. These gains and losses are included in the profit or loss in the statement of comprehensive income.

(m) Intangible Assets

Amortisation

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use. iMIS cloud system is amortised over 10 years.

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(n) Impairment of non-financial assets

At the end of each reporting period the National Office determines whether there is an evidence of an impairment indicator for non-financial assets. Where this indicator exists, the recoverable amount of the asset is estimated and an impairment adjustment is made in all cases where the recoverable amount is less than its carrying amount.

Australian Services Union - National Office

ABN: 28 519 971 998

Notes to the Financial Statements

For the Year Ended 30 June 2024

1 Summary of Material Accounting Policies

(n) Impairment of non-financial assets

The recoverable amount of an asset is the higher of the fair value less costs of disposal and the value in use. Value in use is the present value of the future cash flows expected to be derived from an asset.

Where the future economic benefit of an asset is not primarily dependent on the ability of the asset to generate future cash flows and the assets would be replaced if the National Office were deprived of the asset, its value in use is taken to be its depreciated replacement cost.

(o) Contingent assets and liabilities

Contingent assets and liabilities are not recognised in the Statement of Financial Position and instead, where applicable, are reported in the relevant notes. They may arise from uncertainty as to the existence of an asset or a liability or represent an existing asset or liability in respect of which the amount cannot be reliably measured. Contingent assets are disclosed when settlement is probable but not virtually certain and contingent liabilities are disclosed when settlement is greater than remote.

(p) Australian Services Union branches

The following branches operate and conduct all of their business as a branch of the National Office:

- Victorian & Tasmanian Authorities & Services Branch
- NSW & ACT (Services) Branch
- NSW United Services Branch
- South Australian & Northern Territory Branch
- Victorian Private Sector Branch
- Western Australian Branch
- QLD (Services & Northern Administrative) Branch
- QLD Together Branch
- Taxation Officers' Branch

Australian Services Union branches are considered as reporting units under the National Office as per the Fair Work (Registered Organisations) Act 2009 (the Act). However the activities of these branches are not consolidated into the National Office's accounts as the National Office does not have control of the branches. The branches have their own accounting processes, are required to be audited separately and have their own reporting obligations under the Act.

1 Summary of Material Accounting Policies

(q) Significant accounting estimates and judgments

The preparation of financial statements require the National Office to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected. Australian Services Union - National Office

(i) Key estimates - Impairment

The National Office assesses impairment at the end of each reporting year by evaluating conditions specific to the National Office that may be indicative of impairment triggers. Recoverable amounts of relevant assets are reassessed using value-in-use calculations which incorporate various key assumptions.

(ii) Key judgment - Useful lives of property, plant and equipment

Property, plant and equipment are depreciated over their useful life and the depreciation rates are assessed when the assets are acquired or when there is a significant change that affects the remaining useful life of the asset.

(iii) Key judgment - Provision for impairment of receivables

The value of the provision for impairment of receivables is estimated by considering the ageing of receivables, communication with the debtors and prior history.

(iv) Key judgment - Short term highly liquid investments

The National Office has determined that short-term highly liquid investments are those with original maturities of three months or less.

14 Contingencies

The Australian Municipal Administrative Clerical & Services Union is registered as a body corporate with perpetual succession under the *Fair Work (Registered Organisations) Act 2009* and is divided into the National Office and nine constituent branches (each a separate reporting unit).

Notwithstanding that each branch of the Union is a separate reporting unit for financial reporting purposes under the *Fair Work (Registered Organisations) Act 2009* all assets including property, plant and equipment vests in the National Office in accordance with the rules of the organisation.

The Union together with National Office has a contingent liability in relation to all debts incurred by other reporting units. No provision is considered necessary on the basis that each reporting unit is able to pay its debts as and when they fall due from their own income and reserves.

Apart from the above matters, members of the committee of management are not aware of any contingent asset or liability which existed at balance date, nor to the date of issue of this financial report, which would have a material effect in relation to the disclosures in the report.

15 Events Occurring After the Reporting Date

No matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial years.

19 Financial Risk Management

(a) Net fair value of financial instruments

The fair values disclosed in the above table have been determined based on the following methodology:

Cash and cash equivalents, trade and other receivables, trade and other payables are short term instruments in nature whose carrying value is equivalent to fair value. Long term borrowings relate to a commercial loan whose carrying value is equivalent to fair value. Trade and other payables excludes amounts provided for relating to annual and long service leave which is not considered a financial instrument.

(b) Financial risk management policies

The National Executive have overall responsibility for the establishment of the Union's financial risk management framework. This includes the development of policies covering specific areas.

Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the National Office's activities. The overall risk management policies seek to assist the National Office in meeting its financial targets, while minimising potential adverse effects on financial performance.

Mitigation strategies for specific risks faced are described below:

Credit risk

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the National Office and arises principally from the National Office's receivables.

Credit risk exposure

The maximum exposure to credit risk by class of recognised financial assets at the end of the reporting period is equivalent to the carrying amount and classification of those financial assets (net of any provisions) as presented in the statement of financial position.

19 Financial Risk Management

(c) Liquidity risk

Liquidity risk arises from the possibility that the National Office might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The entity manages this risk through the following mechanisms:

- preparing forward-looking cash flow analysis in relation to its operational, investing and financial activities which are monitored throughout the year;
- maintaining a reputable credit profile;
- managing credit risk related to financial assets;
- only investing surplus cash with major financial institutions; and
- maintaining adequate reserves.

(d) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The National Office is not exposed to market risk.

(e) Price risk

The National Office is not exposed to any material commodity price risk.

(f) Interest rate risk

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period, whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments. The National Office is also exposed to earnings volatility on floating rate instruments.

The financial instruments that expose the National Office to interest rate risk are limited to held-to-maturity financial assets and cash at bank.

The activities of the National Office are not sensitive to changes in interest rates as neither interest income nor interest on borrowings are significant to the organisation.

Reimbursement from other reporting units

The amounts reimbursed for payroll tax, insurance premiums and other costs are treated as deductions from the corresponding expenses on the basis of the costs being expenses of the branch. Accordingly the income and expenses relating to reimbursement of these items are not recognised in the Statement of Profit or Loss and Other Comprehensive Income of the National Office.

Reimbursement to other reporting units

These reimbursement are collected on behalf of the other reporting units. The National Office acts only as intermediary to the transaction and does not receive any benefits. Accordingly the income and expenses relating to reimbursement of these items are not recognised in the Statement of Profit or Loss and Other Comprehensive Income of the National Office.

Terms and conditions

Transactions with other reporting units were made on terms and conditions equivalent to those that prevail in arms-length transactions. Outstanding balances for sales and purchases at year-end are unsecured and interest-free and settlement is expected to occur in cash. No guarantees have been given or received for any related party receivable or payable and no impairment has been recorded or considered necessary.

Former related party

The National Office did not make any payments to a former related party in the current year.

21 Section 272 Fair Work (Registered Organisations) Act 2009

In accordance with the requirements of the Fair Work (Registered Organisations) Act 2009, the attention of members is drawn to the provisions of subsections (1) to (3) of section 272, which reads as follows:

Information to be provided to members or General Manager

(1) A member of a reporting unit, or the General Manager, may apply to the reporting unit for specified prescribed information in relation to the reporting unit to be made available to the person making the application.

(2) The application must be in writing and must specify the period within which, and the manner in which, the information is to be made available. The period must not be less than 14 days after the application is given to the reporting unit.

(3) A reporting unit must comply with an application made under subsection (1).

Independent Audit Report to the members of Australian Services Union - National Office

Audit Report

We have audited the financial report of Australian Services Union - National Office, which comprises the statement of financial position as at 30 June 2024, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of material accounting policies, subsection 255(2A) report and the statement by the committee of management.

In our opinion:

- (a) the general purpose financial report of Australian Services Union presents fairly, in all material respects, the financial position as at 30 June 2024, and of its financial performance and its cash flows for the year then ended and is in accordance with:
 - (i) Australian Accounting Standards; and
 - (ii) any other requirements imposed by the Reporting Guidelines or Part 3 of Chapter 8 of the Fair Work (Registered Organisations) Act 2009 (the RO Act).
- (b) the management's use of the going concern basis of accounting in the preparation of the National Office's financial report is appropriate.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibility section of our report. We are independent of the National Office in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Report and Auditor's Report Thereon

The Committee of Management is responsible for the other information. The other information obtained at the date of this auditor's report is in the Operating Report accompanying the financial report.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with my audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Committee of Management's Responsibility for the Financial Report

The National Executive being the committee of management of the National Office is responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including Australian Accounting Interpretations) and the RO Act, and for such internal control as the National Executive determine is necessary to enable the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Committee of Management is responsible for assessing the Reporting Unit's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Committee of Management either intend to liquidate the Reporting Unit or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibility

Our objective is to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Australian Services Union - National Office

ABN: 28 519 971 998

Independent Audit Report to the members of Australian Services Union - National Office

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Reporting Unit's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Committee of Management.
- Conclude on the appropriateness of the Committee of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Reporting Unit's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Reporting Unit to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Committee of Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We declare that Jeffrey Tulk is an approved auditor registered under the RO Act.
